WALTON WOULD REDUCE CHARGES

ADA TO RECEIVE TEACHERS FROM OVER DISTRICT

Three-Day Conclave of East Central District Teachers Slated

1200 TEACHERS COMING

Four of Most Prominent Educators of Country to be Speakers.

Three of the most prominent educators of the United States will discuss educational problems relative to their application in the East Central district when the 1200 teachers of the eleven counties of the district scheduled to attend the conference assembly at Ada Thursday for a three-day conclave.

Dr. O. T. Corso of Oxford, Ohio, Dean E. P. Cubberley of Stanford University, California, President Charles McKenney, Ypsilanti, Michigan, and Superintendent P. P. Claxton of Tulsa will each bring messages of vital importance to the teachers who attend the conference.

Prof. E. C. Wilson, a member of the East Central faculty who has charge of the arrangements for the 1923 East Central Oklahoma Educational Association conference, announces that practically all details have been completed for the greatest assembly of teachers ever held at Ada.

CANVASS OF CITY PLANNED.

A canvass of the homes or the city will be made Monday to secure places of lodging for the 1,200 visitors scheduled to attend the conference. Little difficulty is expected in the securing of homes for the visitors since a majority of them have been former students at East Central college and will be the guests of friends during their three-day stay.

Business men of Ada have also prepared to receive the hordes of educators from all corners of the district and will assist in every possible way in the entertainment and comfort of the school room instructors during their visit here.

While the entertainment for the visitors will not be overlooked, the real task of moulding and bettering school conditions over this district is seen in the program for the three days of the assembly, which has been outlined by officials of the East Central Oklahoma Educational association for disposal in the halls of the East Central college here.

Every phase of school life—from the primer instruction to the higher level of advanced education—is seen in the outline of the program for the three days. Some of the best-informed teachers in the district will discuss matters in which they are especially qualified and which deal directly with the problems facing teachers in the schools of the district.

With the views of some of the most prominent and successful educators of the land scheduled for lectures before the teachers, the ideas and opinions in use in some of the well founded institutions in other states will be received as instruction matter for the enlightenment of problems facing the educators in this district.

In the morning assembly of the educators on Thursday, the opening day, Dr. O. T. Corson of Oxford, Ohio, will discuss with the teachers the rights and duties of the teacher. Dean E. P. Cubberley of Stanford University will discuss "The State and Education" at the same session.

Doctor Corson will also be the principal lecturer in the Friday program of the assembly before the county organizations of the district hold their meetings.

Nash and Claxton Coming.

Two important men in the educational life of the land are scheduled for addresses before the assembly Friday. Friday State Superintendent M. A. Nash will open the assembly with an address, which will be followed by the lecture of President Charles McKenney of Ypsilanti, Michigan, who is at the head of one of the most talked of educational institutions of the country.

Superintendent P. P. Claxton, the highest salaried superintendent in the United States, is listed for the principal address before the general assembly Saturday.

The four prominent speakers with many others well versed in different phases of school life have been listed for talks of educational subjects in the departmental assemblies to be held intermittently.

Entente Now Fearing New Balance of World Power

Dictators Mussolini (left) and de Rivera and map of the Mediterranean region.

Two dictators, Benito Mussolini of Italy and Primo de Rivera of Spain, will meet in Rome on Nov. 20. France fears the purpose of the meeting is to set up a new balance of power in the Mediterranean. Completion of the Spanish and Italian submarines makes the combined fleets of these nations superior to the fleet of France.

(By Central Press) PARIS, Oct. 23.—A fresh fear has seized upon the statesmen of France. A new balance of power in the Mediterranean, inimical to French interests, may soon be set up.

Should Spain and Italy unite they might become masters of the Mediterranean. Their combined fleets are superior to the fleet of France.

Such thoughts are uppermost in French minds as preparations go forward for the meeting in Rome on November 20 of Dictator de Rivera

DECREASE SHOWN IN COTTON QUOTA

Oklahoma's Condition Given at 735,000 Bales; Market Up.

(By the Associated Press)

WASHINGTON, Nov. 2.—A decrease of 767,000 bales in the prospective cotton crop as compared with month ago was shown today when the department of agriculture forecast 19,248,000 on a basis of conditions prevailing October 25. The report was the first of its kind ever issued in November and had been awaited with keen interest by the cotton world in view of the scarcity of cotton due to deterioration of this year's crop.

The report showed that the crop on October 25 was 47.80 per cent of normal compared with 49.5 per cent on September 25 of this year, 52.6 on October 25, 1922 and 43.2 per cent for the same date of 1921, indicating a yield of about 128.9 pounds per acre.

Oklahoma's yield was given as 735,000 bales and the condition as 43 percent.

The Texas crop was estimated at 4,300,000 bales.

NEW ORLEANS, Nov. 2.—Cotton bulged \$8.00 per bale on the New Orleans cotton exchange this forenoon on receipt of the government's report of the probable yield based on the condition on Oct. 25. Prices soared from 130 to 158 points above the lowest level of the market recorded just before the report reached here, December rising to 31.38 and all months going to new high levels for the season.

EMPORIA, Kans., Nov. 2.—Upon receipt of news of the First National bank robbery at Ottawa this morning county officers threw a cordon of deputies around Emporia in hope of capturing the robbers who were said to be headed this way. The bank robbers are believed to be the men who robbed the Warren Mortgage Co. here last night.

NEW YORK Nov. 2.—Cotton jumped over 100 points in the local market today on publication of the department of agriculture's forecast of 10,248,000 bales.

SODDEN SKIES TO GREET GRIDSTERS IN BATTLES HERE

High and Pauls Valley Out for Battle at One o'Clock.

TEAMS READY FOR FRAY

Injury to Fleming Yesterday Not Expected to Put Dent in Lineup.

Sudden skies did not dispel the feverish excitement that prevailed in Ada today before the opening of Park Field to the hordes of followers of gridiron conquest.

A light mist fell over the city early today but the inclemency of the weather is not expected to endanger prospects for a record attendance on Ada's most important gridiron event.

The dampening atmosphere is not expected to have a detrimental effect on the field of play, the gridiron being well flooded with heavy grass, which makes playing possible despite the heaviest of rains. If rains continue however, the elusive pugsling will be made even more so for use in the forward passing or any other type of football other than straight run plays.

In the collegiate game, both teams have taken out insurance against any inclemency of the weather that might hinder the attendance.

The field was being thoroughly prepared for play this morning and other arrangements being made in the stands for the convenience of the public and the students of the college as well as the out-of-town visitors. The bleacher stands will be used to seat the students and former students while the grand stand will be reserved for the public. This arrangement will be rigidly followed out unless rains make it impossible for students to remain on the bleachers.

Teams Arrive Yesterday.

The Edmond and Pauls Valley high school teams arrived late yesterday afternoon, too late for a workout previous to their engagements on Park Field. Coach Wantland headed his crew here and was still optimistic over the prospects for the battle here today.

Coach Joe Milam rushed his Tigers through a light-workout yesterday afternoon on College field as a final touch of preparedness for the battle of the season here this afternoon. Jim Fleming, who has been working at quarter during the past week, was injured yesterday afternoon when he collided with Dorsey during workout. It is thought that Fleming will be in shape for the game today. No other injuries, with the exception of Johnson, will mar the Tiger chance for victory on the gridiron today.

Tigers Hard Opponents.

The Ada Tigers have fared well with the Edmond squad during past seasons, the local tribe being the only one in the state to offer serious objection to their contention for state intercollegiate titles on the gridiron.

While the fever of excitement over the results of the game today felt intensely in Ada and Edmond, the eyes of the state are focused on the fray here today, its result having a definite part in the deciding of the state honors.

Edmond comes to Ada without a blemish on her record this year, while Ada lost to Weatherford after outplaying that team in every yard of the field. Edmond suffered a no score game with Shawnee-Baptists, while Ada placed a 7-0 victory over the Shawnee field.

The games will start on schedule time. Pauls Valley and Ada will take the field at 1 o'clock and the Tigers and Edmond will start play at 3 o'clock.

Several merchants voiced their intention of closing the doors of their business during the afternoon but the closing of business houses is left to the discretion of merchants.

FRANCE WELCOMES PROBE IN REPARATIONS ISSUE

(By the Associated Press) PARIS, Nov. 2.—France accepts with cordiality the complete collaboration of the United States in the conference of experts to investigate Germany's capacity to pay reparations. She deems, however, that it would be clearly understood that the proposed inquiry should be limited to the "present" capacity of Germany and that it would respect the rights held by the reparations commission under the treaty of Versailles.

FORTUNE HELD IN ONE LUMP OF SILVER UNEARTHED BY MAN ON CANADA CLAIM

Anson Clement, at right, and friend, seated on the 3,200-pound lump.

The great silver field at Cobalt, Can., has yielded many large nuggets but the one recently unearthed by Anson Clement is said to surpass any other ever dug. He is now exhibiting a single lump of silver weighing 3,200 pounds—over a ton and a half—and valued at \$20,000. He is a carpenter. His claim is near Cobalt.

PAULS VALLEY A VICTIM TO ADA

Local High School Win Game In Muddy Field by Score of 25 to 0.

Playing in a field of mud Ada High football team evened their record with Pauls Valley by putting across a four touchdown and one kick. The score at the end of the contest stood at 25-0.

In the first quarter the local players opened with a running offense that ended when Fuqua crossed the line for the first score. Just at the close of the same period Floyd slipped across for the second counter. After Baker had scored in the second quarter there was no scoring until the last quarter when Fuqua again crossed for a touchdown. Hargis kicked goal.

Forced to depend on their line plays and end runs the local team made consistent gains through and around their heavier opponents, all of the Ada backfield making good gains.

Passing was almost impossible because of the muddy field and slippery ball. Fumbles were frequent on both sides, but the ball seldom changed hands in this manner. Pauls Valley was forced to kick time after time while Ada refused to adopt this means of defense, depending on running plays when long gains were necessary to remain in possession of the ball.

The entire Ada line starred on defense, securing many tackles behind the line of play. On offense the local players worked consistently, making possible regular gain by the backs. Stead at end was successful in receiving a few passes but this method of advance was doubtful.

Floyd at left halfback was responsible for many of his team's gains, carrying the ball for long advances and seldom being stopped at less than four yards. Fuqua at the other halfback position made a number of long broken field runs and with Floyd made an excellent combination for the high school.

Hargis at fullback plunged the line and Baker in addition to his work of directing the team, starred at broken field gains. Deaver was in the game for a time after having a shoulder injured at Okmulgee.

Several parties voiced their intention of closing the doors of their business during the afternoon but the closing of business houses is left to the discretion of merchants.

Several Parties Slated to Appear Before Committee

(By the Associated Press) STEUBENVILLE, O. Nov. 2.—Two Jefferson county teachers en route here to attend the opening of the East Ohio teachers convention were run down and killed by a passenger train on the Cleveland and Pittsburgh railroad at Toronto.

Miss Olive Irwin, 22, of Richmond, Ohio, died instantly from a crushed skull and Miss Helen Bernhard, 26, of Fremont, Ohio, died 30 minutes later from internal hemorrhage, shock and the severing of her right arm at the shoulder.

The two women had been waiting for a freight train to pass and stepped in front of the oncoming flyer.

No surmise as to the possible trend of evidence sought by the committee in the summoning of Ada witnesses could be determined from the walks or life followed by those summoned.

Deep-sea creatures depend on those at the surface for their food.

COUNSEL SEEKING ELIMINATION FOR FOURTEEN COUNTS

Appointment of Baskin Up for Argument Before Senate.

DEMURRER ACTION ON

Other Articles of Charge Brought to Test by Attorneys.

(By the Associated Press)

OKLAHOMA CITY, Nov. 2.—Counsel for Gov. J. C. Walton, on trial before the senate court of impeachment on charges preferred by the lower house of the legislature at noon, were deep in their argument on a demurrer by which they hoped to strike from the impeachment bill 14 of its 22 articles.

Given by a vote of the court as much time as they desired, uninterrupted as a result of an agreement by which the prosecution reserves its answer until their entire demurrer had been argued, the governor's attorneys were going into the detailed offensive against 14 charges covered in their demurrer.

Arguments supporting Gov. Walton on his demurrer began shortly after 10 a.m. and defendant's counsel took up charge No. 1, the appointment of Charles H. Baskin as district judge at Nowata and they attempted to show that such action was not an impeachable offense. Stress was laid on previous appointments of legislative members to office, instances which the governor's counsel said were similar to the Baskin case.

The executive's counsel indicated that the statute involved meant that such appointments were not to be made if the office was created during the appointee's term of service in the general assembly or if the compensation of the office had been increased during the same period.

Article Thirteen Discussed.

Discussion of Article 13 was the second of the demurrer articles to be argued by the governor's counsel. The procedure outlined provided that all demurrer articles should be argued before any reply is made by the house board of managers.

Article 13, charging that the executive appointed indirectly "his political friends and supporters to lucrative positions and places on the state pay roll," was assailed as indefinite and lacking supporting evidence. No names of state employees were given, it was pointed out.

Article 2, alleging that Gov. Walton's personal chauffeur was on the health department pay roll was declared to be a duplication of Article 13 and should be stricken from the allegation against Gov. Walton to prevent trial twice on the same charge, counsel said.

There are no statutory grounds for removing the executive from office for issuance of deficiency certificates when it is alleged that no deficiency exists, as charged in Articles 15 and 21, the governor's counsel said. The statutes, however, provide that deficiency certificates may be issued in an "emergency" but do not mention the exhaustion of appropriations.

Presentation of demurrer arguments was divided among the six members of the executive's counsel. Tom Neal of Poteau opened and was followed by I. C. Sprague of Idabel and W. K. Snyder of Oklahoma City.

Purchase by Gov. Walton of a \$48,000 home was defended as a legitimate transaction innocent of "willful corruption."

OKLAHOMA CITY, Nov. 2.—

Three members of Governor Walton's counsel admitted today that if the impeachment trial of the executive results in his removal from office they may carry his case to the United States supreme court.

None of the counselors would reveal what sort of action might be expected. It was intimated that the election of October 2 might be the basis of complaint if federal court proceedings were brought.

NOTICE ROYAL ARCH MASONS.

Special convocation of Ada Chapter No. 26, R. A. M. Saturday evening at 7 o'clock for work in Most Excellent Master degree. All Royal Arch Masons are cordially invited to attend. W. P. Lee, H. P.

The oldest living monarch is His Majesty Sambach Preah Bat Kampuchea, 'isowath, king of Cambodia, 84 years old.

***It's true, quality is always
worthy of the price***

No one wants cheap shoes any more than they want cheap meat, cheap eggs, or cheap hats. Most people spend two-thirds of their life in shoes. The shoes support the body. The hat, the coat or the gloves merely rest on the body. Shoes are a foundation. The others are decoration.

Did you ever hear of a "corrective hat" or an "orthopedic necktie"? The reason is obvious.

A cheap shoe and a good shoe may look alike. So do two railroad tickets, but one will carry your farther than the other. So will Walk-Overs carry you farther than cheap shoes.

If these shoes which resemble each other closely in a window, could be compared with each other after six month's wear, then the "worth-whileness" of Walk-Over \$7.00, \$8.00 or \$9.00 quality over \$4.00, \$5.00 or \$6.00 cheapness would stand out.

Fancy shoes in quick changing styles have invited an atmosphere of short lived, hurriedly constructed footwear. There is a returning appreciation of goodness in shoes and there is a beauty in goodness or quality that outranks temporary style attraction.

Furthermore, WALK-OVERS always fit, and that care in design and construction is never placed secondary to outward appearance.

When a person buys a cheap article, he feels good when he pays for it and disgusted every time he uses it. When he buys a good article he feels better every time he uses it for the recollection of quality remains long after the price is forgotten.

We invite you to see our WALK-OVER fall styles for men. They're winners.

Ardmore Man Reports Twenty Pounds Gain

"I took Tanlac until I gained twenty pounds and it built me up so I can do as much work as any hired man on my place," said O. S. Bailey, wealthy farmer living near Ardmore, Okla.

In 1908 I had a spell of slow fever and for years I was in bad shape. I had no appetite, what I ate did not agree with me, and it was all I could do to drag around.

About a year ago I had a spell of the flu, rheumatism set in and my

legs and shoulders hurt terribly. On my second bottle of Tanlac I began to improve, and now I haven't an ache or pain of any kind, my appetite is fine and sleep like a log. I have recommended Tanlac to dozens of my friends who have taken it with good results. It's great."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Take Tanlac Vegetable Pills.

BIBLE THOUGHT FOR TODAY

WHENCE COMES TROUBLE?—When he giveth quietness who then can make trouble?—Job 34:29.

ZIONIST DREAM SHATTERED, SAYS ZANGWILL.

For 2,000 years and more the Jewish race has been scattered over the face of the earth while their native land of Palestine has been ruled successively by Babylonian, Persian, Greek, Roman, Christian and Turkish conquerors and finally passing under the political control of Great Britain. However, the love of the land of their fathers has always been strong among the Jews and they have never lost faith in the prophecies which declared that once more they would possess this sacred spot. Palestine is insignificant in area, but no other spot on the globe has witnessed so many important events as has this little country. Three of the leading religions of today had their origin there and the world is still largely influenced by the lives and thought of the men who flourished there during the early days of the human race.

In recent years this longing to return to the scenes made famous by actors of the great drama of Jewish history has taken shape in the Zionist movement, but while Palestine was under the domination of the Turks it was plain that the realization of the dream of centuries was unthinkable. However, when the British conquered the country during the world war the hopes of these nationalists revived and there has been some immigration to the old home of the race. Sentiment may be a beautiful thing but in this practical age facts must be faced first. In the case of the returned Jews it is said that their lot has not been an easy one, for conditions differed greatly from those to which they had been accustomed.

However, the Zionists recently held another convention and it was here that they were given a hard blow by a leading member of their own race, Israel Zangwill. Zangwill declared that the dream of a free Jewish state is as remote as ever and that the Zionist movement has failed. On the other hand, his assertions were met with a strong protest from the convention and the movement is far from being abandoned.

Naturally one could not expect a movement of the magnitude of this one to succeed within five or six years. Under the protecting arm of Great Britain matters may in time adjust themselves and Palestine may again be made a land flowing with milk and honey as it was described 3,000 years ago. With patience, time and money some marvelous results can be attained even though it may be a slow process. Zangwill intimated that one great obstacle is the fact that many Jews, especially in America, will never be disposed to break loose from their congenial surroundings and return to face unknown difficulties in Palestine. However, it might be remembered that with this made a haven of refuge for the oppressed Jews in some of the countries of Eastern Europe, it may yet be filled to its capacity with a new population. At all events, the world will watch with keen interest the turn of affairs in this new state.

GREAT INDUSTRIAL MOVEMENTS

Probably the greatest movements ever inaugurated in our country for stabilizing finance and utility properties are the establishment of labor banks and customer ownership of utilities.

In many of the large cities, large labor organizations have become controlling stockholders in national banks, and members of unions not only own shares but are swelling the deposits into millions.

On the other line, the customer ownership of utilities, starting in June, 1914, has been extended to 1,500,000 citizen stockholders in electricity, telephone and gas corporations.

Individuals in this large number not only share in the dividends and interest distribution of these large utility and public service organizations, but have invested \$300,000,000 this year in new securities.

Customer ownership financing has been the salvation of these public service industries, supplying the new capital necessary for extensions and improvements.

Some great railroad companies such as Union Pacific, Southern Pacific and Santa Fe and oil and sugar companies, have extended their lists of stockholders by selling their common stock to the men and women on their payrolls on the installment plan.

By thus welding the interests of their employees, customers and the general public as a link in this financial existence, there is developing an asset of wonderful value, and a system of profit sharing that is based upon sound principles.—Ex-

Lloyd-George has about concluded his visit to America. He has many admirers in this country and everywhere met an enthusiastic welcome. Perhaps his visit will help to bring about a still better understanding between his country and this. Lloyd-George is the type of man who cannot be downed and the chances are that he will be recalled to power before he is much older.

Trying to get rid of enemies is like the effort of Hercules to kill the monster with several heads, everytime he cut off one head seven new ones appeared and he had still more chopping to do.

THE LURE OF INDIAN SUMMER

OIL NEWS

What appears as a real oil well has just been brought in section 28-3-4 on the Floyd farm near Vanoss by Gilbert and Clark. The sand was entered one foot at 7 o'clock Thursday morning, according to John Fitz, who was on the job, and filled immediately with 500 feet of oil, the sand being raised 150 feet. By eleven o'clock the hole was more than 500 feet in oil.

Balling started and continued for ten minutes balling a barrel a minute. Ten minutes failed to lower the oil, but it increased somewhat in volume. The sand was encountered at 866 feet.

Mr. Fitz believes this is a real well. While the oil is low gravity, it will find a ready sale, oil men say. Just what the well will produce cannot be determined at this time, but if as good as some believe it will go at least a thousand barrels a day. The well is not making any gas to speak of.

Fire Causes Loss to Two Buildings at Allen Today

ALLEN, Nov. 2.—(Special to THE DAILY HERALD)—A fire of undetermined origin at 5:30 this morning destroyed the telephone exchange building and damaged the Cummins & Leonard building adjoining before the flames could be checked.

The fire, which started in the telephone exchange, spread rapidly and threatened the entire business section of the town.

A temporary telephone exchange has been established to assure long distance telephone communication, while the offices in the Cummins & Leonard building will be vacated until repairs can be made.

RAILROAD SHOPMEN SUE PENNSYLVANIA FOR \$15,000,000

(By the Associated Press) Philadelphia, Nov. 2.—System Federation No. 90 representing shop crafts of the Pennsylvania railroad system, today brought suit in the federal court for \$15,000,000 against the Pennsylvania railroad to make up alleged non-payment of wages which resulted, according to the bill of complaint, from the refusal of the railroad to abide by the ruling of the United States railroad labor board.

BANDITS ROB PENNSYLVANIA BANK AND MAKE ESCAPE

(By the Associated Press) JOHNSTOWN, Penn., Nov. 2.—Five bandits armed with rifles robbed the First National bank of Bakerton, 30 miles from here today and escaped with \$2,000 in cash after wounding one man and stealing three automobiles. Twice the bandits' machine broke down and each time they stole another car. They finally disappeared in the direction of the Indian county border.

ANOTHER EARTHQUAKE FELT IN MANILA: NO DAMAGE

MANILA, Nov. 2.—Another earthquake, the fourth in three days lasting about 10 seconds, was felt here at 2:43 o'clock this afternoon. No damage was reported.

The origin of the tremors is believed to have been near Taal volcano, which is located on the small island of Bombon, Lake Batang province of Luzon.

HAROLD LLOYD PERFORMS HIS OWN THRILLS IN LATE COMEDY

No one will be able to question the fact that Harold Lloyd performs his own "thrill stunts" in the seven-reel, hairraising Pathé-comedy, "Safety Last," which comes to the American theatre Monday, for in practically every scene in the picture Lloyd's face shows on the screen.

Thrills with frills and chills are promised, with the spectacled comedian performing the difficult task of climbing the side of a twelve story building and reaching the roof after overcoming the most hilarious and fearful hazards. And, although suffering part of the time from a disjointed shoulder, Harold declines to use a "double" at any stage of the production. Indeed, it will not require a close inspection to disclose this fact.

This story has been heard so many times about a picture star that it is now old stuff, but this time it is an actual fact. Even the closest observers of picture productions will not find a single double-exposure, or uncover one scene in the entire seven reels of "Safety Last" that would tend to question the reality of the thrill stuff.

"Safety Last," however, is not all thrills. The first part contains the most wholesome and amusing comedy moments and incidents that Harold Lloyd has ever put on the screen. In his role of a department store clerk, the spectacled comedian is absolutely at his best. He is the rollicking youth of 'A Sailor Made Man'—just Harold Lloyd "himself."

The production contains one of the most delightful love stories ever screened, with Mildred Davis, of course, being the young lady in the case. As the worshipping young man, Harold Lloyd puts all the famous screen lovers to shame and mingles sentiment with comedy in a most charming manner. "Safety Last" can be truly said to be the greatest comedy ever produced.

DARLINGTON, Nov. 2.—The state's new home for treatment of narcotic patients is ready for opening in about two weeks. Delay on several occasions has already kept the building vacant two months after it was hoped the institution could be accepting patients. Health department officials have already received enough applications to fill the home, it was said.

Say Former Crown Prince Returns to Germany on Visit

(By the Associated Press) BERLIN, Nov. 2.—Reports that the former crown prince Frederick William, exiled in Holland since the war, had returned to Germany were in circulation this morning and given publicity by Deutsche Allgemeine Zeitung. Inquiry, however, quickly brought denial of the report.

Members of the Hohenzollern family at Potsdam declared there was no truth in the rumor, while from Upper Silesia, where he was reported to be, it was declared that Frederick William had not been seen. It is known, nevertheless, that there has been discussion recently of the question of allowing the ex-crown prince to return and it is considered a possibility that he may shortly be permitted to do so on condition that he remain quietly on his Upper Silesian estate where he is said to desire to settle.

AUXILIARY TO CHAMBER OF COMMERCE TO CONVENTE

There will be a business session of the Auxiliary of the Chamber of Commerce Tuesday afternoon at three o'clock. Among the questions of interest to the ladies is "Tree Planting Week." Plans for planting trees on the highways leading to Ada will be outlined.

CITY AND COUNTY STILL REPORTS NO ARRESTS

City and county law enforcement departments drew another step toward a spotless record for the week when the doors of their prisons remained ajar.

DOCTORS GETTING GREAT RESULTS

New and Scientific Methods Bring Many Back to Health.

Remarkable Letter From Mrs. Williams of Boynton, Okla., Attests Her Gratitude to the Inter-State Doctors.

Greater strides have been made in medical science than in any of the other known sciences. This in connection with the awakening of mankind to the real value of health and the necessity for following the laws of hygiene and the wisdom of the great mass of the people in the prevention of disease is rapidly making us a healthy nation.

Wonderful results are being brought about by intravenous, or direct to the blood stream methods. While it is true that the general practitioner is slow to take up new methods for the treatment of disease, his busy life prevents his studying them in a way. Yet the advanced specialist in the treatment of chronic diseases must keep abreast of all later discoveries and methods. The Inter-State Doctors, through their organization and facilities, use all of these later discoveries with which they combine far-reaching methods of their own.

The following from Mrs. Williams should be of interest:

"Boynton, Okla., Sept. 30, 1917. "I had been ill for eighteen months. I had treated with a great many doctors without any results whatever. I had treated with doctors in Tulsa, Boynton, Sapulpa, Okmulgee, Muskogee and elsewhere. I was constantly getting worse. My attention was called to the Inter-State Doctors. I called on them for an examination and placed myself in their care. My worst symptoms had entirely disappeared in three days, and I have received many times more good in ten days than I had in all of my treatments before. I will be glad to talk to anyone personally as to what these doctors have done for me and cheerfully recommend any sufferer to call on them."

"Mrs. C. H. WILLIAMS." The Inter-State Doctors are permanently located in Shawnee, 1201 East Main street.

Hours 9 to 5, and 7 to 8 p.m.

Sundays 10 to 12 only.—Adv.

ADA TO RECEIVE TEACHERS FROM OVER DISTRICT

(Continued from Page One) during the three days of the assembly.

From superintendents and principals to teachers of special studies in classroom work will be directed the subjects of the various addresses and lectures during the departmental assemblies.

Annual educational assemblies have been showing a gradual increase during the past few years, the 1200 attendance expected this year being the largest number scheduled for the annual conference. Over 900 teachers from the district attended the conference last year.

A large majority of the teachers to attend the conference this year will be former students of East Central college. Many have been working during the summer terms for a degree, which can now be granted by the institution.

Nearly 90 percent of all children of elementary grade age of this country attend public school.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The Inventor, B. P. Johnson, 609 W. Lake St., Chicago, Ill. is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

FREE TEXT BOOK LAW INADEQUATE

Amount Appropriated Judged Not Enough to Meet Demands.

OKLAHOMA CITY, Okla., Nov. 2.—The legislative appropriation of \$600,000 for free textbooks for the first eight grades of all Oklahoma public schools will fall far short of providing the necessary amount of books when provisions of the free textbook law become effective next fall, according to a survey just completed by the state department of education.

Based upon present cost of books used in the first eight grades throughout the state, the figures compiled under the direction of M. A. Nash, state superintendent, indicate the legislative appropriation will purchase approximately thirty percent of the necessary books.

An exhaustive research was made by the department in determining textbook costs. Every book used in each class was listed at the price it is being sold by the publisher under contract. The total cost to each student was embraced in tabulations and multiplied by the number of pupils enrolled. Superintendent Nash found that Oklahoma schools today require \$1,944,331.18 worth of text books for the first eight grades, based upon 1919 contract prices.

New textbooks will be adopted next year, in accordance with the five year change required by stat-

ute, and quotations of new books are likely to be higher than those books now being used because of increased cost of publication, according to Superintendent Nash. A conservative estimate of the cost of the books to be furnished by the state is \$2,000,000, he says, and the appropriation allows but \$600,000.

The state textbook commission will meet sometime next January to select texts for all Oklahoma grade schools for the next five years. The commission probably will then let contracts for supplying the state schools with books, to be ready for use in September.

First grade pupils use a primer writing book, first reader and a drawing book, costing respectively 30, 12, 34 and 16 cents, or a total of 92 cents for each boy and girl.

Superintendent Nash found latest enrollment figures show 135,419 children in the first grade, he says requiring \$124,575.48 worth of books of education.

Figures for the other grades were given as follows:

Second grade, 76,436 pupils, cost per student \$1.23; per grade \$94,016.28.

Third grade, 76,089 pupils; cost per student \$2.12, per grade \$161,308.68.

Fourth grade, 72,648 pupils; cost per student \$3.99; per grade \$289,865.52.

Fifth grade, 65,356 pupils; cost per student \$5.19, per grade \$339,197.64.

Sixth grade, 56,408 pupils; cost per student \$6.15, per grade \$346,900.20.

Seventh grade 48,011 pupils; cost per student \$6.82, per grade \$327,025.62.

Eighth grade, 44,913 pupils; cost per student \$5.82, per grade \$261,422.76.

Total cost of \$1,944,331.18.

Fourth grade, 72,648 pupils; cost per student \$3.99; per grade \$289,865.52.

Fifth grade, 65,356 pupils; cost per student \$5.19, per grade \$339,197.64.

Sixth grade, 56,408 pupils; cost per student \$6.15, per grade \$346,900.20.

Seventh grade 48,011 pupils; cost per student \$6.82, per grade \$327,025.62.

British Labor Decrease

(By the Associated Press)

LONDON—There has been a general flight of laborers from the land according to figures of the ministry of agriculture, which show that on June 4, 1923 there were 772,000 laborers employed in England and Wales as compared with 869,000 in 1921.

PYORRHEA CAN BE CONQUERED

New Preparation Removes All Trace of the Dreaded Disease

ON ROAD TO BONEYARD

"I have just finished a treatment of your wonderful remedy and can say it has done wonders for me already. For the past five years I have been unable to eat any but the lightest food and that but sparingly, as any food caused me to bloat with gas. I was reduced to a skeleton of ninety pounds, and was on the road to the boneyard. A friend in Birmingham sent me a bottle of Mayr's Wonderful Remedy. which I took, and I am sure it will entirely cure me of my trouble, judging from what it brought from me and the way I feel." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Gwin & Mays and druggists everywhere, adv.

D.W. GRIFFITH presents "THE WHITE ROSE"

Your love affairs form the big drama of your whole life. Here is a picture story about a girl who couldn't stop loving—a story so big, so dramatic, that you'll thrill, surge, sigh, just as glowingly as in the first sweet raptures of your own first love.

MASONIC TEMPLE RITUAL RESERVED

Largest Gathering of Masons Lay Foundation for Memorial Temple.

(By the Associated Press)

ALEXANDRIA, Va., Nov. 2.—"True, trusty and well laid" as the ritual goes, the corner stone of the George Washington National Masonic Memorial, resting on mortar spread by the nation's highest officials, and the grand masters of every Masonic jurisdiction in the country, was in place today to receive and bear into the ages its mighty burden of granite.

Two hundred feet above the crest of Shooters Hill, commanding a perpetual view of the vast estate he owned and commanding a view of the capital of the republic he helped to make possible, the memorial will rise in calm dignity to attest the reverence of the Free Masons of America for their fellow craftsman, George Washington, in the quaint old town of Alexandria where the first president presided over Masonic meetings.

With solemn ritual in the presence of one of the largest gatherings of Blue Lodge Masons in history. The stone was laid with mortar spread by President Coolidge with the trowel his illustrious predecessor used in laying the corner stone of the first national capitol and the first Masonic temple erected here.

Chief Justice Taft following the president used the same treasured relic which will now await its final resting place in the completed memorial.

DUAL MORAL CODE IS

GRIFFITH FILM THEME

It is doubtful if D. W. Griffith ever labored more diligently in his career on any work than he did in the case of his latest United Artists production, "The White Rose," which comes to the McSwain Theatre next Monday. Here is something so distinctly different, so reverently tender and depending so much upon vastly superior characterization that the famous producer found it necessary to take scenes time after time in order that each might be perfect in its cameo-like delicacy and beauty.

Mr. Griffith's theme in this instance is far different than anything ever seen before on screen or stage. It was necessary that it be told in the most artistic manner and be arranged by a past master in the art.

A youth of high family and circumstance in a section of the South which boasts one of our oldest social orders is preparing for the ministry, thus fulfilling a dying wish of his mother. He is finishing his last year at the seminary and it has been practically accepted by all who know him that he shall marry a girl of equal family importance in his own neighborhood. To learn something of the world and broaden his outlook, he sets out on a walking trip and visits various cities.

Meanwhile there emerges from an orphanage a slip of a girl who must make her way unaided in the world. She obtains employment in an inn frequented by winter vacationists and here this youth of religious mein meets her.

The wifl has progressed to the acute flapper stage by this time, having been told she must make herself attractive to get on in the world. She does so, but in a manner that outdistances the others. The student preacher meets her, becomes enamored, yet all the while thinking she is of a bad sort. Their friendliness ripens into something deeper and the divinity student flees from his charmer.

The M'ethodist Church

Next Sunday is the last Sunday of this conference year and we hope to have a great day.

Rev. W. M. Crutchfield our presiding elder, will preach at 11 a.m. and hold the quarterly conference immediately following the morning service. Every member is urged to be present at the annual election of officers will take place, also the closing up of the year's finances.

All services of the day will be as usual. The annual conference meets in Shawnee next Wednesday, Nov. 7.—J. H. BALL, pastor.

CLAIMS NEVER SPENT
HAPPY DAY WITH STOKES

(By the Associated Press)

NEW YORK, Nov. 2.—Mrs. Helen Elwood Stokes, wife of W. E. D. Stokes, resumed the witness stand today for cross examination in the trial of her husband's suit for divorce.

She said she did not recall having spent a happy day with Stokes since her marriage. She emphasized that she had never been at the home of Edgar Wallace, named in the suit as co-respondent.

Four Million Dollars To Be Spent On Washington Masonic Memorial Temple

(By the Associated Press)

ALEXANDRIA, Va., Nov. 1.—The cornerstone of a four million dollar Masonic temple, a national Masonic memorial to George Washington and a shrine for American Freemasonry was laid here today with impressive ceremonies. President Coolidge, members of the Cabinet, a large array of official personages and representatives of 17,000 blue lodges and other Masonic organizations participated. The temple which is Greek in its architecture will be known as the George Washington National Masonic Memorial.

The building will rise 200 feet above Shooters Hill, on the outskirts of this city, which Thomas Jefferson and James Madison proposed for the site of the capitol of the United States. It will resemble and was inspired by the great towers of ancient Greece and Rome from whose summits permanent flaming flares guided mariners at sea and, in the words of H. W. Corbett, one of its architects, "will represent to the world the guiding spirit of Washington in statesmanship and his revered precepts which for all time will set an example by which the Ship of State may direct its course."

In this memorial will be the resting place of many priceless relics of the Father of His Country which have been carefully preserved by the Alexandria-Washington Lodge, No. 22, of which Washington was the first Worshipful Master. Located equidistant between the nation's capitol and Mount Vernon, the memorial will become the mecca of many visitors who make pilgrimages to Washington's tomb on the Potomac.

The original trowel used by General Washington on September 18, 1793, in laying the cornerstone of the capitol building of the United States was used again today in the laying of the cornerstone of the memorial. Silver replicas of the trowel were presented to each visiting Grand Master who used them in spreading a small quantity of mortar for the cornerstone. The ceremonies conformed to the laws of Masonry as in use in Virginia and were under the auspices of the Grand Lodge of Virginia with Charles H. Callahan, deputy grand master of Virginia, in charge as a tribute for his lifelong study of Washington. Col Louis A. Watres of Scranton, Penn., president of the George Washington Masonic Memorial Association; William Howard Taft, chief justice of the United States, and James H. Price, grand master of Virginia, assisted. The ceremonies were preceded by a parade from the old lodge room to the new memorial site in which marched Masons from every state.

From its commanding position overlooking the Potomac Valley from Washington to Mount Vernon the memorial will be a landmark. It will have a setting of 32 acres and be surrounded by artistic landscapes. Broad walks and stone steps ascending through seven terraces will lead to its entrance. The building itself will be 230 feet deep, 160 feet wide and tower upward 200 feet. The main masses of the building will comprise a base in which will be located the great Washington Memorial Hall, and various Masonic rooms where may be perpetuated in imperishable form the memory and achievements of the men whose distinguished services to Freemasonry merit particular and lasting reward. The Memorial Hall will be an imposing atrium, 70 feet wide and 100 feet deep. In it a statue of Washington will be placed. This hall will be 64 feet high, rising by a clerestory above the surrounding portion of the building. It will be flanked by great Ionic columns 40 feet high and surrounded by a number of rooms devoted to Masonic interests above the roof of which will be clerestory lights.

A six-column portico of pure Greek Doric design forming the entrance to the building will be a marked contrast to the plain, unbroken walls of the exterior of the Masonic rooms. Above the massive base will rise a tower-like structure of smaller dimensions. Directly above the Memorial Hall the second story of the tower will form a museum room for the preservation of relics of George Washington and his time, as well as interesting relics connected with Washington's service as Master of the Alexandria-Washington Lodge. There will be a third level of slightly smaller dimensions above the museum room and above that an observation level with structure a little smaller in size from which visitors will be able to view the country from the capitol building at Washington to the Washington homestead at Mount Vernon. State colonnades on all four sides of each of these three levels forming the tower-like structure will add to the beauty of the memorial. The architects are Helme & Corbett New York, with S. Eugene Osgood Detroit, as consulting architect Olmsted Brothers, Brookline, Mass. and the landscape architects with Carl Rust Parker in association.

The memorial is to be the center and rallying point for Masons of the United States and of other countries in addition to being the repository for the many valuable relics of George Washington which have been preserved by the Alexandria-Washington Lodge. One of the most prized possessions of the lodge is the famous Williams por-

trait of General Washington in Masonic regalia. Another is the clock which was in Washington's bed chamber on the night of his death.

The memorial building in which the Washington reliques will be preserved hereafter is the outgrowth of necessity and was no single individual's idea. Many members of the Masonic order in the earlier days were privileged to see the articles so closely associated with Washington in possession of the Alexandria-Washington Lodge, but it was not until 1907 that the public generally was permitted to do so. Since then the number of visitors has increased yearly, gradually growing from 600 to 15,000. As the number of visitors increased, the demand for a fireproof structure in which the Washington heirlooms should be placed became more insistent, until finally the proposed repository was decided upon.

Shooters Hill, the site of the memorial, was selected as it commands a view of the city of Washington, of Mount Vernon, of Alexandria and of all the country most frequented by George Washington.

Laying of the cornerstone of the Memorial marks the close of 170 years since George Washington became a Mason. He entered the order November 4, 1753. The Alexandria Blue Lodge, which was privileged to add Washington's name to the name of the city so that it today is known as Alexandria-Washington Lodge No. 22 held the first regular communication of the first Masonic Lodge in Alexandria on February 25, 1783. It was instituted by the Provincial Grand Lodge of Pennsylvania, and was known as No. 39 of that jurisdiction. General Washington was elected an honorary member shortly after his return from the Revolutionary War and his fondness for the old institution is evidenced by a letter written to the lodge and still in its possession. After the surrender of the Pennsylvania warrant, application for a new charter was made to the Grand Lodge of Virginia and General Washington became first and charter Master of Alexandria Lodge No. 22. He subsequently was elected to succeed himself and served in all about 20 months.

AUSTRALIAN LABOR MOVEMENT STIRRED BY REPORT OF FRAUD

(By the Associated Press)

SYDNEY, N. S. W., Nov. 2.—A political bombshell crashed into the midst of the Labor movement in this state with the announcement of recommendations of the executive, which have been adopted, as the result of the discovery of the use of alleged crooked ballot boxes in certain elections at the headquarters of the party.

It was found that a number of the boxes had secret panels enabling manipulation of the ballots. The affair caused a sensation on the eve of the annual conference of the party and a special committee, with A. C. Willis, the new president, as chairman, was appointed to ascertain the facts and make recommendations. Its decisions touched some of the most prominent figures in the party and their expulsion, four without limitation of time, and two others for two years each, has resulted.

Amelle Rives the novelist, once sent her signature to fourteen different editors on a wager that all could read it. The nearest that any one made it out was "American Rivers."

Why do we stretch?
—because the body is sluggish and needs more fresh blood. Stretching squeezes many arteries, makes it harder for the blood to circulate, and thus spurs the heart to greater activity. Countless thousands use

Puretest Aspirin Tablets

when that sluggish feeling comes with a cold or the grippe. Absolutely true aspirin, tablets so skillfully made that their beneficial action begins in 15 seconds. Snow-white, highest purity, never irritate or burn.

MEXICAN DEPUTIES ADVOCATE SIX-YEAR-TERM FOR PRESIDENT

(By the Associated Press)
MEXICO, CITY, Oct. 30.—A group of deputies have announced their intention to inaugurate a campaign for the reformation of Article 83 of the constitution in order to lengthen the presidential term from four to six years. They assert that under the present system the executive has only two years to devote to constructive work, since during the other two his time is fully occupied by purely political questions.

In a single fire New York has had more property reduced to ashes than Berlin has had in ten years.
